

Q Find out the Applications of Recursion.

Q. Is recursion still used in present programming
era if do why.

Q What are the Programming lang that support
programming calls.

1) Factorial

2) Fibonacci series

3) Tower of Hanoi problem

4) Binary Search

5) Tree traversal

6) Graph Traversal

7) Merge sort

8) Quick sort

9. Finding LCP

10 Power calculation

11. Palindrome Checking

12. Backtracking problems

2) Yes, Recursion is still widely used in modern programming, although developers sometimes replace it with loops or iterative approaches when recursion could cause performance or memory issues.

Where it is used:- File system traversal, Tree data structures, Graph algorithms, Sorting algorithms, Backtracking algorithms

3) C, C++, Java, Python, ~~C#~~ JavaScript, Go, Rust, Swift & Kotlin.
